

# FR

Massif's ACS is the standard for hot-weather combat gear. A progressive design incorporates feedback from thousands of soldiers in some of the world's most unforgiving environments. Our innovative FR fabrics are lightweight, breathable, and highly wicking. With four-way stretch, a performance fit, and uncompromising FR construction, the ACS is engineered for FR protection and exceptional comfort under armor. Over five million shirts fielded by the U.S. Army.

## Flame Resistant Army Combat Shirt (FR) MultiCam

### FEATURES

- ✦ FULL FLAME-RESISTANT CONSTRUCTION WITH PROPRIETARY MASSIF® FABRICS

- ✦ SEAMLESS SIDE-PANEL CONSTRUCTION
- ✦ VELCRO® BRAND LOOP FOR NAME, RANK, FLAG, AND UNIT TAPE
- ✦ ADJUSTABLE WRIST CUFFS

### FABRIC

- ✦ FLAME RESISTANT
- ✦ BREATHABLE
- ✦ LIGHTWEIGHT
- ✦ STRETCH

### FLAME RESISTANT

Meets the stringent manufacturing and performance testing requirements of the Army's Team Soldier Certified authorization program: PEO Soldier Certification Program ([www.peosoldier.army.mil/faqs](http://www.peosoldier.army.mil/faqs))

All fabrics pass the stringent ASTM D6413/F2302 performance specification for flame resistance.

Tested in flash fire simulations on the PyroMan thermal manikin to demonstrate performance in burn scenarios.
