

Flame Resistant Altitude™ Softshell Jacket (FR)

The Massif® Altitude™ Softshell is a highly breathable, combat-ready flame-resistant jacket designed for fast and light movement. Made with our revolutionary new SABA™ fabric, a two-layer laminate that blends proprietary FR processes with unique knit structures, the Altitude Softshell is a cutting edge garment providing exceptional comfort, durability, and performance in one streamlined package. Massif's SABA fabric is lightweight and highly breathable, making it perfect for under armor applications and advanced layering systems. The proprietary nylon face has an extremely smooth hand, adding to its comfort and enabling quiet operation. Massif Battleskin™ fabric is used under the arms and sides offering additional breathability. Providing three season functionality, the Altitude Softshell is a steady foundation for your cold weather system.
