

Flame Resistant Elements™ Jacket U.S. Army with Battleshield X® - Multicam (FR)

Extensively tested by troops in some of the world's harshest conditions, the U.S. Army Elements Jacket offers full FR construction, four-way stretch, and wind and water protection. Functional features such as zippered shoulder pockets provide easy access to gear, flapped pen pockets accommodate aviators, and a pass-through flap allows for CVC extraction straps. Fits easily over uniforms and won't bunch under packs or body armor. Selected for inclusion as the Army's Intermediate Weather Outer Layer in the FREE program.

This jacket features Massif® Battleshield X® FR fabric, a flame-resistant, nylon-faced laminate featuring Gore® FR stretch technology. There is simply nothing else like Battleshield X fabric. This extremely durable, highly breathable jacket offers multidirectional stretch, excellent water resistance, and a superior warmth-to-weight ratio.

The jacket's fleece lining features Massif Flamestretch® and is constructed with DuPont™ Nomex® brand fiber. Engineered with Massif's proprietary knitting and finishing technology, Flamestretch provides built-in flame resistance, proven durable performance, and comfort from the inside out.

FEATURES

- ⇨ FULL FLAME-RESISTANT CONSTRUCTION WITH PROPRIETARY MASSIF® FABRICS
- ⇨ 4-WAY STRETCH FABRIC
- ⇨ BATTLESIELD X® SOFTSHELL FABRIC FEATURES WINDPROOF, WATERPROOF, AND BREATHABLE MEMBRANE
- ⇨ HIGH, FLEECE-LINED COLLAR
- ⇨ ZIPPERED CHEST POCKET
- ⇨ ZIPPERED SLEEVE CARGO POCKET
- ⇨ ZIPPERED HAND-WARMER POCKETS
- ⇨ ADJUSTABLE DRAWCORD AT HEM
- ⇨ TWO FLAPPED DOUBLE PEN POCKETS
- ⇨ INTERNAL WRIST CUFFS
- ⇨ VELCRO LOOP FOR NAME, RANK, FLAG, AND UNIT TAPE
- ⇨ PASS-THROUGH FLAP FOR CVC EXTRACTION STRAP
- ⇨ MACHINE WASHABLE

FABRIC

- ⇨ FLAME RESISTANT
- ⇨ WARM
- ⇨ WIND PROOF
- ⇨ BREATHABLE
- ⇨ DURABLE
- ⇨ WATER RESISTANT

FLAME RESISTANT

Authorized by the U.S. Army as the Intermediate Weather Outer Layer in the FREE program.

Meets the strenuous manufacturing and performance testing requirements of the Army's Team Soldier Certified authorization program: PEO Soldier Certification Program.

All fabrics pass the stringent ASTM D6413/F2302 performance specification for flame resistance.

Tested in flash fire simulations on the PyroMan thermal manikin to demonstrate performance in burn scenarios.
